West Indies

BY FREDERIC J. HASKIN
Director
Janesville Daily Gazette Information
Bureau, Washington, D. C.

Washington, D. C., Aug. 23.—A persistent rumor is current here that Great Britain wants to pay part of what she owes us by transferring to our ownership her islands in the West Indies.

It may be stated with confidence that the trade would be advantageous to England. The British holdings in the West Indies have long been regarded as a white elephant. They are not a source of revenue to the British government. During the war this country had to supply the one and a half million people living in the British West Indies with meat and bread, and Great Britain refused to pay for them. The islands produce sugar, spices, coconuts, tropical fruits and that sort of thing, but they have to be supplied with the staples. Most of their trade, and hence, the bulk of the benefit from them, comes to the United States, but Great Britain is responsible for them in an emergency.

The advantages to us of acquiring these islands are obvious. Perhaps the best reason that can be advanced in favor of the transfer is that the whole Caribbean region lies right at our back door, and is therefore one of our responsibilities by proximity and circumstance.

Undeveloped Industrially. Nearly all of the Caribbean countries, islands and mainland are undeveloped industrially and somewhat unstable politically. To develop these countries and keep them orderly is a task which the American people cannot avoid. If there is revolution in Haiti, we have to settle the affair, not only for the sake of peace, but also for the sake of the sugar crop, which is necessary both to us and to the Haitians. Likewise, the interior of the island of Santo Domingo is undeveloped. American money and American engineering brains must do the work.

This supervision and development which we must supply, may be a real objection of a more exploitation. We say, as we have in the past, send a few ships to Haiti when they have a revolution, shoot a few airplanes and a few bombs, and then withdraw. Or we may, as we should, advance Haiti a loan for internal development, then supervise the building of roads and schools and the establishment of a government, and then withdraw. Or we may straighten out their systems of land tenure and help them to develop their own countries. We can keep the peace by helping them to live, or we may starve them to death as we have starved many of them to death already, by paying them no wages. In a word, we can administer this trust in an efficient and equitable manner, or we may continue to bungle our colonial policy, as we have bungled it ever since we got our first colonies.

Cannot Avoid Trust. The West Indies and the Caribbean region generally are among our responsibilities. We might as well take on a few more islands while we are at it. But we should also realize that a consistent and intelligent colonial policy is absolutely necessary.

The present pro-revolutionary policy is that Americans should know something about their tropical holdings, and about this region generally. West of them know nothing about the West Indies, right at their doors, than they do about the East Indies. What do you know, for example, about these islands which England threatens to bestow upon us?

British possessions in the West Indies consist of the Bahamas, Barbados, Jamaica, Leeward Islands, Trinidad and Windward Islands. About 90 per cent of the islands are of no value except for the 10 per cent of the islands which are of value to the English, East Indians, American Indians and Chinese.

More than half of the foreign trade of the islands is connected with the United States. In 1913, we exported about \$22,000,000 worth of products to them, while in return we bought about \$14,000,000 worth of their products, including sugar, fruit, coffee, molasses, rum and lumber.

DOG-CATCHERS WILL BE KEPT BUSY BY GERMAN CANINES

(BY ASSOCIATED PRESS.)

Paris, Aug. 23.—America will be very busy with German police dogs if the dog catchers at the ports in France are not kept busy with the returning dogs and do not put an embargo on the German product.

All the soldiers and marines from the Rhine districts bring police dogs to Paris. Officers, doughboys and girl workers with the army lead them through the Paris streets. The American troop trains passing through Belgium and Luxembourg on their way to France carry a great assortment of the German canines.

Red Cross workers, Young Men's Christian association workers and members of the Young Women's Christian association have been won over by the German police dogs and are taking them back to America. Most of the canines have pedigrees showing that their grandfathers were wolf. They are all grey, about the size of the shepherd dog with the pointed nose and sharp erect ears of a wolf.

URGES CONSERVATION OF PULP WOOD FOR NEWS PRINT PAPER

(BY ASSOCIATED PRESS.)

Washington, Aug. 23.—As a step toward conserving the decreasing supply of American pulp wood used in the manufacture of news print paper, Senator Watson, republican, Indiana, today introduced a resolution authorizing the secretary of the nation's available pulp wood timber supply. The secretary also would be directed to make recommendations for pulp wood utilization. The sum of \$100,000 is asked to carry on the survey and investigation.

Two thirds of the news-print paper used by American newspapers, Senator Watson said in introducing the resolution, is imported or is manufactured from wood or pulp imported from Canada. One third is made in the United States from wood grown in the United States. The former proportion is steadily increasing; the latter is steadily decreasing.

Pulp Forests in Northeast. "Nearly all of the American news print manufacturing industry is located in the northeastern states—half of it in New York," the senator continued, "but in the Pacific northwest—Washington, Oregon and part of California and the states of northwestern Montana and northern Idaho are great forests that have been no more than touched by the few pulp mills in that section of the country."

The senator told the senate that in Alaska are enormous areas of forests, the annual growth of which would supply pulp for half of the news print paper used in the United States, but no pulp mills are there.

Proposes Federal Policy. To stimulate American production Senator Watson said, the following governmental policy should be carried out:

An immediate and adequate governmental survey of American resources in this field.

Immediate steps to bring about practice of forestry and the conservation of forests in the pulp producing regions to the end that the annual inroad upon the forests will be lessened and that the growth of the forests will be equal to the growth.

Development as soon as practicable of the industry in the northwest and in Alaska.

PARIS HAS ITS HOUSE TROUBLES, TOO; NO MOVING

(BY ASSOCIATED PRESS.)

Paris, Aug. 23.—The struggle between Parisian landlords, who seek to double or treble the income from their properties and tenants who are unable to pay the increased rents, has reached a deadlock. House owners refuse to extend leases or to advertise for rent apartments that have been vacated. Tenants are unable to find new quarters, refuse to move at the best of the landlords, while the courts have ceased to entertain applications for writs of execution, there not being enough process servers to handle those already issued.

Fifty thousand notices to vacate were served on tenants for the end of the second quarter of this year. Such notices were received by the tenants of some apartment houses, showing how generally landlords have sought to increase rents. The extent of the movement has provoked the French chamber of deputies to pass a bill extending for two years all verbal leases made since the beginning of the war. Leases made prior to the war already were protected by decrees and previous legislation.

Allies to Tell Germany "No Treaty Discussion"

(BY ASSOCIATED PRESS.)

Paris, Aug. 23.—The supreme council has decided to send two more notes to the German delegation to Versailles. The first will ask that institution be made to the Jugo Slav government for the Constolatz mines seized by Germans during the war and exploited. The second will acknowledge a message expressing the intention of the allies government to hand over to the allies documents relative to damages done invaded territories, especially those arising from requisitions. The second note will make it clear that there can be no discussion of the treaty of peace with Germany.

Editors Invited to Visit This Country

EDWARD MURRAY CONFESSES TO FIVE CRIMES; NAMES COMPANION IN HOLD-UPS.

SAYS HE FEARED OTHER'S THREATS

Prisoner Tells Court That Intoxicated Soldiers Were Selected As Victims.

Edward Murray, Janesville's youthful brick bat bandit, was sentenced to serve 10 years in the Green Bay reformatory by Judge H. J. Maxwell in the municipal court shortly before six o'clock yesterday afternoon, when he confessed to participating in five hold-ups in company with Raymond Lawrence, who is being held at the county jail awaiting his hearing.

Murray, a country youth of 17 years, who had never been in a city as large as Janesville, until five months ago, when his parents, Mr. and Mrs. Daniel Murray, moved here from Alton, was not the same arrogant chap as when arrested. He was willing yesterday to tell all he could remember of his wild career of hitting half drunk soldiers in the heads with bricks and robbing them.

Bravado Is Gone. His five weeks of confinement in the county jail had completely broken his bravado and as he sat telling his story, which was one of the most vicious ever related in the municipal court, he trembled.

Murray, when placed on the witness stand, told of coming to Janesville to work for the Samson Tractor company. He admitted visiting pool rooms, where he became acquainted with Lawrence. He said they made a West Milwaukee car pool room their hang out when planning robberies.

Rob Sleeping Soldiers. The youthful bandit told the court that the first robbery occurred in the rear of the Congregational church, where a long-haired drunken soldier, back there to sleep and while the khaki clad man was slumbering they went through his pockets getting nearly \$200.

They then visited the Apollo theater and after the show walked down South Jackson street. Lawrence, who was custodian of the money, handed Murray an envelope and told him it was half of \$75 and the other half was his. They went to the Fourth ward park and slept. When Murray awoke in the morning he had only \$35, but Lawrence insisted that he gave Murray \$75.

At a week later I met Lawrence and he suggested that we go out and get some more," Murray said. "I asked him where we would get it and he replied that we could get some drunk soldiers."

We went to the Chicago and North-western passenger station and found a soldier asleep. We cut his hip pocket out and left."

Lawrence Threatened. Murray told the court that he had decided he did not want to participate in any more hold-ups, and he told Lawrence that they should give the money back. He maintained that he was not a criminal.

Expected At Luncheon. It is hoped to have the new manager arrive in the city in time to attend the first members council luncheon of the season, Monday, Sept. 8. At that time, he will be introduced to the chamber and will outline the activities to be pursued.

Mr. Wells is a graduate of the Wells-ville, N. Y., High school and River-side seminary. He has had three years' experience in a retail hardware store. He received his education at the superintendent of the New York & Pennsylvania railroad, later entering the employ of the Buffalo Southern Railway company and elected to the employ of this company, spending two years in general work, four years as a treasurer, and four years as vice president.

He has had six years' experience in chamber of commerce work, having spent four years as secretary of the retail merchants' division of the Chamber of Commerce, Buffalo, N. Y., and two years as secretary-manager of the Chamber of Commerce at Corning, N. Y.

In accepting the position here, Mr. Wells took into consideration the many advantages offered by a growing city to a man in the commercial field. He is especially pleased with the wonderful prospects Janesville has and it was mainly this feature which brought him to a decision.

Pretty Girl Kisses 'Tiger'

It wasn't within the power of the fair Alsation girl above to award the croix de guerre, medal of the Legion of Honor or some other coveted honor to Premier Clemenceau for his part in the restoration of Alsace-Lorraine. So she gave him the best gift at her command—a dainty kiss full on the cheek. It happened during the great Victory parade in Paris and the dignified "Tiger" doesn't seem the least bit flustered.

G. F. WELLS IS SHANTUNG MADE C. OF C. CLAUSE HEAD

(BY ASSOCIATED PRESS.)

Washington, Aug. 23.—By a vote of 9 to 8, the senate foreign relations committee today adopted an amendment to the peace treaty by which German rights in Shantung province, China, would go to China instead of Japan.

All the democratic members and Senator McCumber, republican, North Dakota, voted against the amendment. Chairman Lodge offered the amendment under which the word "Japan" would be stricken from the Shantung sections of the treaty and the word "China" substituted.

The committee also instructed Chairman Lodge to request President Wilson to send the senate the treaty between the United States and Poland signed June 28 at Versailles and such information as he has regarding the treaties now under negotiation with Austria, Bulgaria, and Turkey.

Senators Hitchcock, Nebraska, Shields, Tennessee, and Pittman, Nevada, democrats were not present but their votes were recorded in the negative on the Shantung amendment. The action was taken without debate, but shortly after the committee began its work on amendments under a plan to report the treaty to the senate if possible within the next week.

Shantung amendment is expected by leaders on both sides to develop greater strength than any other on the senate floor. Democratic leaders say they have beaten and ordered out of Austin yesterday was the only offender in connection with the matter.

Rumania's Signature Depends on Minorities

(BY ASSOCIATED PRESS.)

Paris, Aug. 23.—Rumania's signature to the treaty of peace with Austria still depends upon modifications of the clauses relating to guarantees to minorities, according to information from authoritative Rumanian sources.

The Rumanians point out that by royal decrees which will be approved by the new chamber of deputies to be elected in September, minorities, not only in the new territory attached to Rumania, but in the old kingdom, have been more amply protected than the peace treaty provides. Rumania does not desire to have forced upon her, it is said, provisions which it is feared would be interpreted by the minorities as giving them really the upper hand.

INTERALLIES INQUIRE INTO POLE-GERMAN CLASH OVER SILESIA

(BY ASSOCIATED PRESS.)

Berlin, Friday, Aug. 22.—An international mission leaves this city for upper Silesia within 24 hours and the Polish commission which has been conferring with government officials will return to Warsaw and make a report.

This new outcome was the outcome of precipitate action by the Poles, who Wednesday interrupted negotiations with Germans, claiming the upper Silesian situation such by further deliberations was impossible. It was evident that this action came as a surprise to entente representatives here. General Dupont, commander of the international commission, expressed the view that the German government had sole authority at present in upper Silesia.

It is not expected that negotiations with the Poles will resume until after the international commission had reported and its findings are accepted as final until questions involved in the occupation of upper Silesia as well as other disputes are settled by further talks. In the meantime the German government has agreed to moderate military measures now being enforced in the region and to discontinue executions.

MULFORD LEADING IN ELGIN RACE; A NEW RECORD POSSIBLE

(BY ASSOCIATED PRESS.)

Elgin, Ill., Aug. 23.—Ralph Mulford was leading a field of 10 contestants when the first 150 miles of the event had been covered today. Mulford's time was 1:55:33. His average was 75.6 miles an hour, a new record for the course. Arthur Kline was second and Tom Milford third. Kline's time was 1:57:10.

With the race half finished, three of the original 13 starters had been forced out of the competition. Cecil Duran was forced out because of an accident and Joe Thomas and Al Cotey withdrew because of motor trouble.

Elgin, Ill., Aug. 23.—With Ralph Mulford, in his Deussenberg, the ranking favorite, 15 cars were sent away at 12:01 P. M. today in the second renewal of the Elgin road race of 301 miles for the Cobe cup and \$3,000 in prizes. The race was over a dangerous course 8 1/2 miles long. The last minute withdrawals were Percy Ford and Arthur Kline, whose cars would not make ready for the event.

Durant Turns Over. Cliff Durant of San Francisco, one of the favorites of the race and winner of the Santa Monica road race, turned over three times with his machine while speeding around one of the treacherous turns and miraculously escaped serious injury. A cut over his right eye and a broken nose were the result of the spill. His car was so badly damaged, however, that he withdrew from the race.

Mulford began burning up the speedway from the start. He covered the first 50 miles in 1:15:00. Tom Alley, who was pressing Mulford, covered the same distance a minute and nineteen seconds slower.

Milton Abard at 190 Miles. Ten men in a Deussenberg snatched the lead from Mulford at the twelfth lap—approximately 99 miles. Milton had covered the distance in 1:16:51, while Mulford's time was 1:17:15. Cotey withdrew from the race because of a broken connecting rod.

ATTITUDE ON DEVELOPMENT OF OIL FIELDS ALARMS U. S.

FOREIGN CAPITAL NOT PROTECTED

Outside Interests Held As Necessary To Increase Production.

(By Associated Press)

Marfa, Tex., Aug. 23.—Pursuit of Mexican bandits by the American punitive expedition is continuing south, it was announced today. The trails are not considered "hot" however, as the bandits have reached the mountain fastnesses, and it is feared have escaped.

Reciprocal Guard Proposed

Mexico City, Friday, Aug. 22.—An important step toward the adoption of measures to prevent clashes between Mexican and the United States was taken last night when Luis Carranza, secretary of the treasury and general secretary of the mouthpiece of the present administration, stated in a press interview that the Mexican and American governments should sign an agreement for a reciprocal border guard service.

Ygnacio Bonillas, Mexican ambassador at Washington, according to Senator Carranza, "would be eminently fitted for conducting negotiations with this purpose in view. Carranza tends to point out that with reciprocal border service to eliminate further clashes, with the present government bending every energy to protect foreign property and with congress about to take up the oil question, the case of Mexico should be solved quickly."

Oil Question Alarming

Washington, Aug. 23.—Officials here are somewhat disturbed, it was learned today, by the apparent determination on the part of Carranza and his official advisors in Mexico city to confiscate the oil property of foreigners, including Americans, in spite of protests lodged with the government by every nation whose nationals have investments in Mexico.

Two public declarations by Mexicans close to Carranza have expressed the president's opinion, official and unofficial alike, except for the Carranzistas, has declared to be vital. The opinion of all classes in Mexico as reported in the Mexican city newspapers and attributed to the state department, is for a prompt and correct settlement of the petroleum question which has been declared to be the key to relations between the United States and Mexico.

Foreign Capital Necessary. Don Carlos Durio, the Mexican economist, asserts that foreign capital is absolutely necessary to the development of Mexico's resources. In the face of these demands now made publicly and declared to be imperative, Carranza's official circle has no interest in protecting foreign capital. This is borne out by the following official statement recently made by Ing. F. Vazquez Schaffino, chief of the petroleum bureau of the department of industry, commerce and labor.

The steps taken by the petroleum bureau have followed a program whose main points may be summarized as follows:

Does Home Advertising. To engage in a work of propaganda and diffusion of all data relating to the petroleum industry so as to interest national capital and to invite the attention of Mexican industrial, professional men and workmen, in order that they may play an active and important part in the development of this industry making it, in a short time, an essentially and genuinely Mexican industry.

This official statement which is believed to be the last word of Carranza, coupled with the advice of Luis Cabrera, secretary of the treasury urging the supreme court to be in no haste about considering the petroleum now before it, has aroused great interest in official circles here.

political and economic conditions that prevail on that island are quite typical of others. The last census of Jamaica, taken in 1911 gives the total population of the island as 331,883. The language is English. Many American business men make the island a mistake of sending to the island advertising matter printed in Spanish. As in other tropical countries, the climate has a tendency to make the natives indolent. The island suffers severely at times from hurricanes.

Next to Jamaica in importance is the island of Trinidad, just off the coast of Venezuela. This island is of great natural beauty. The laboring class use a dialect called creole, but the majority understand English. In 1917, the population was 350,000. There is an influx of East Indians from Calcutta averaging 2,500 a year, to the island. The island is a very fertile country. The East Indians started to arrive as early as 1845, living conditions on the island being considerably better than in India.

Barbados Thickly Populated.
One of the most densely populated islands of the group is the Barbados. The latest census gives the number of inhabitants as 171,932 or 1,338 to the square mile. The birth rate is 36 and the death rate 23 per 1,000. The high mortality is said to be due to the heavy death rate among infants as the land is remarkably more fertile than their neighbors. Practically three-fourths of the population is engaged in agriculture and owns of land nearly 10,000 peasant owners of land. According to Barbados records, a considerable portion of these do not own more than half an acre each. Every third acre of land is utilized by intensive cultivation.

Owing to the large population, Barbados negroes have been compelled to range far in search of employment not obtainable on the island. Many of them helped to dig the Panama canal and invariably sent home a considerable part of their wages.

The Bahamas, consisting of a chain of 700 islands off the Florida coast, possess a peculiar historical interest to America since it was upon one of this group that Columbus landed in 1492.

The Windward Islands, consisting of the islands of Grenada, St. Vincent and St. Lucia, with a chain of smaller islands and islets, are scattered over 59 nautical miles. Their population is approximately 175,000.

ARMY BLANKETS TO BE PUT ON SALE HERE

Postmaster J. J. Cunningham stated this morning that he has received instructions in regard to the sale of army blankets. Many people, seeing that the sale had already begun in Chicago, and wishing to buy some of the blankets for the low price at which they are offered, have inquired at the postoffice and at the Gazette, but as yet no instructions have been received. All the orders in Chicago have been countermanded except at those places where they have already received their supply. The blankets were to be sold at 10-cent stores in Chicago, but the war department countermanded the order and the blankets will be distributed throughout the country, as the food-stuff was, so as to give those in the smaller cities an opportunity to buy. There were only two places in Chicago where the blankets could be procured—the Boston store and Klein Bros.—the Boston store amounted to 30,000 yesterday. The rest of the 63,000 which was their allotment, were predicted to be sold today. Klein Bros. sold 1,000 yesterday.

Kolchak Crisis Due in Month Says Morris

(By Associated Press)
Washington, Aug. 23.—Ambassador Morris, who was sent by the state department to Omsk to report on conditions in Siberia, has advised the government here that the next 30 days will probably see a crisis in the affairs of the Kolchak government. Ambassador Morris in his report, it was learned today, asserts that Admiral Kolchak is the best man for the task confronting him and that it is a question of his success or the triumph of the bolshevik government. Recognition of the Kolchak government, it is suggested, will probably be made in the next 30 days, has been urged by Ambassador Morris. It is understood.

Laundry Wear and Tear
Is a bugbear to many persons. They believe a power laundry is unavoidably severe and destructive in handling the wash. There is practically no wear and tear in this laundry, because we use Refinite Perfect Soft Water.

REFINITE
Nature's Water Softener

Refinite softened water does not weaken or tender animal fibres, such as woolsens and silks, or damage the finest fabric. It forms no gummy soap curd to penetrate and cling to the clothes. Suds form easily and lift the dirt with very little rubbing. All of the soap rinses out, leaving the clothes clean and free from that rancid odor characteristic of the hard water wash. Note the natural richness brought out in the colored goods we launder, and the snowy freshness of the linens and other white goods. Refinite is a water softening mineral, not a chemical preparation to "break" water. Refinite softened water is delicious and healthful to drink. We will be pleased to show you our Refinite Water Softener. Call any time.

GRINNELL LAUNDRY QUEEN

WASHER & WRINGER

You can wring from the washer to the rinse tub—then to the blueing—then into the basket—without any lifting or stooping—just swing the wringer.

And by the simple pulling of a lever the top with dolly swings over the proper tub and does your rinsing.

The LAUNDRY QUEEN has but few moving parts and they are all on top and completely guarded. It stops operating the minute you lift the lid and costs but a cent an hour for electric power.

Waterproof motor; solid wood dolly; washer and wringer may be used together or independently; safety wringer device; light, strong steel bench; wonderful planetary gear drive.

BUMPER TOBACCO
CROP EXPECTED

While all indications are that the tobacco crop this year will be a record bumper, but little cutting has been started in Rock county. Mayor T. B. Welsh, who operates a tobacco warehouse, when not engaged with his office duties, said today that a bumper crop is expected throughout Rock county.

"I do not believe that any cutting has been started in the county, but the cutting should be well advanced by the last of August," Mr. Welsh said. Reports have been received that in some localities in the state the crop has been cut. Most of the farmers in this section have topped their tobacco and they claim that the cutting will be started far in advance this year.

GRAIN

Chicago, Aug. 23.—The corn market started out weak today, buying support being limited. Important purchases of Texas corn yesterday were factors in the bearish sentiment which predominated. The opening was 3/4c lower, with September at the greatest decline, initial prices were for 1.32 1/2c to 1.32 3/4c.

Oats were sold freely at the start, weakness of corn furnishing the start, but the market was firm and closed lower, with September at 72 1/2c and December 75 to 76 1/2c.

Provisions started strong, 5c to 7c higher, with offerings limited and a moderate buying sentiment.

Liquidation continued through the session and prices fell off rapidly. September leading. Purchases of Texas corn which traders feared would assume proportions very depressing.

The close was weak and near the low point for the day. Corn closed 2 1/2c to 3c lower, September showing the greatest decline, 1.75 1/2c and December 1.41 1/2c to 1.41 3/4c.

INVESTIGATION.
The Modern Miller of editorial on
August 9 publishes an editorial on
investigations at Washington which
furnishes food for thought, especially
for those who believe that it is im-
possible to continue raising wages and
earnings of producers and still lower
the cost of living. The discussion fol-
lows:

"Foodstuffs occupied the spotlight
in the Washington investigations this
week. Shoes, clothes, freight rates,
lumber, machinery, laundry, car-fare,
drugs and numerous commodities that
make up the high cost of living
all escaped any spectacular publicity.
Probably one of the most important
factors in high living cost is 'politics',
and in the investigation now under
way we wonder if this will be brought
from its hiding place and laid square-
ly before the American people.

"After thousands of shiploads of
food, shoes, clothes, freight rates and
machinery have been shipped out of the
country to meet the demands of war,
there was an increase in living cost.
Then began the political evasion of
the consequences in a series of caten-
gories to strong voting elements. First,
the producer was guaranteed high
prices for wheat, and the cotton
grower was given special consideration.
Washington was agitated by the farmer
who was an element which it was not de-
sirable to alienate.

"Next it was considered admirable
politics to grant substantial wage in-
creases to railway administration em-
ployees, and the government agencies
spent the next six months in granting
wage increases to everyone. The
asked, even down to the salaries of
stenographers and janitors throughout
the land. The telephone companies
were permitted to double and triple
their rates.

"Now Washington is all absorbed
with consumers—the general public
who must be appeased against the
high cost of living. If political caten-
gories to take care of the producer en-
hanced the products of the farm, and
added to the cost of manufactured
goods, every item that enters into the
cost of living—then it is hard to see
how the consumer is to escape this
certain increase and get reduced cost
of living.

"In pointing the finger at the guilty,
it looks a bit like political efforts
find a goat, but in actual effect it will
be hard to reduce living costs when
the goat is picked out for sacrifice.

"You can't pay the producers more
and labor more and have living less.
The consumer is squirming most,
right now, and is in the public gaze,
but at best his living cost will be re-
duced very slightly after all the agita-
tion, which is more apt to be a po-
litical play for favor in the 'grand
effort to get down the living cost' than
it will actually succeed in any real
substantial reduction in cost of
commodities.

"Unless farm products come down,
and wages come down, who can fur-
nish the necessities of life for less?
This is the problem Washington is
fiddling with. There will be more
stew about profits to add ferment
to industry; there will be agitation
until panic in stocks is imminent, and
the consumer will be misguided in
his hope for immediate real reduc-
tions in living costs, but we will wager
our judgment, that Washington will
not put out an itemized statement of
the number of shiploads and the num-
ber of tons of food and commodities
of which the country was drained for
four years, nor will stress be laid on
the government's six month's solici-
tation for the farmer, or the six month's
period of raising wages and freight
rates.

"The agitation would be of benefit
to the American people, if these sev-
eral causes for higher commodities
were made explicitly clear to all, say
in public prints and movie screens.
In a minor way, profits can be pared
down, particularly those enjoyed by
the retailer, who has felt no restraint.
"But not until producers and wage
earners take their old production
prices and wage scales, is it humanly
possible to restore the cost of living
to its former basis.

"Lloyd George makes it plain when
he says the world will have to work
hard and suffer some, before the pen-
alty of war will be satisfied.
"But no one is willing to suffer, and
there is big agitation for less work."

WOULD THE LEAGUE HELP?
By this time it would seem that
everyone in the world ought to have
had his fill of war and violence, but
we must conclude sadly that the
Mexicans are to be excepted. What
is to be done with them, or about
them?

Even our patient administration,
which has taken a great deal of im-
pudence from Mr. Carranza, and en-
dured a large measure of scornful
disdain from denizens of his country,
shows signs of losing its temper.
Murder of American citizens, plun-
dering of property, and later the hold-
ing of American aviators for ransom,
all are conspiring to some end and
bids fair to prove disagreeable to Car-
ranza. Washington is decidedly
restive.

We have had enough of war, and
we are going to have years to get over
what has happened in Europe, but
what are we going to do about Mex-
ico?

If the proposed league of nations
were in operation, would that help?
Would we call upon the other mem-

bers to join us in enforcing a com-
mercial boycott against Mexico until
she chose to behave? Could we cut
off this obstreperous people from
communication with the outside
world, and starve it into good con-
duct? If this were to be tried, what
would be likely to happen to oil wells,
ranches, and other property, of Amer-
ican and European investors?

There is an interesting problem for
the league to cut its teeth upon, as-
suming that America would consider
it other than a strictly American is-
sue. If wars are to be avoided in the
future, here is a first rate laboratory
problem to work out right now. We
may soon see how the world is going
to handle its malcontents.

SIGN COMMUNICATIONS.
The editor of this paper is puzzled
because he is unable to impress upon
the readers the necessity for signing
with their true names any communi-
cations which are to be published in
the Voice of the People column. We
have repeatedly explained that no
communications will be published that
are not accompanied by the name of
the writer. If he wishes to have
the article appear over a nom de plume
his true name will be placed on file,
although we would prefer to have any
one who has anything to say, to say
it openly and take the responsibility
for it over his own name. The Ga-
zette desires to have the opinions of
its readers on all subjects, and it will
publish any communication of interest
to readers on any reasonable sub-
ject, provided it does not contain more
than 300 words and is accompanied
by the name of the writer.

We have three communications
now on our desk which we will not
publish until we have the names of
the writers. If they will send them
in we will be glad to publish the let-
ters.

It is encouraging to note the re-
sponse made by citizens to open their
homes for those who come here to
work. Chamber of Commerce rec-
ords show that 16 furnished rooms
were engaged in one day. This
leaves the situation somewhat, but the
steady flow of newcomers will swell
in volume as the industrial develop-
ment grows and we are still way be-
hind in providing accommodations.
More houses to rent must be had, and
the only way to get them is to build
them right now. A few months from
now we will be so far behind the main
parade that we can not see the last
band wagon for dust.

Those who still are unconvinced
that Janesville will grow much as the
result of industries building here
should get into an automobile with
outsiders who stop in our city, per-
haps enroute from some thriving city
in Illinois to a point north of us, and
hear their enthusiastic remarks. As
they pass the various construction
projects and are told of the things
that are being done and will be done,
their enthusiasm is expressed in un-
certain terms. Many predict that
Janesville will be a city of 50,000 in
from two to three years. They may
be too optimistic, but they see what
possibilities confront us.

Is there any significance in the fact
that Gov. Philipp gave Senator Bob
the glad hand when the former vis-
ited Washington? For some time be-
fore that the governor's greeting of
the senator has had a decidedly
frothy tinge. The vice-presidential
boe is said to have caused the state
executive to take particular interest
of its flittings from "flower to flower"
and perhaps he is getting his para-
phernalia ready to try to swarm in to
his hive.

Well, anyway the house has voted
that profiteers will be punished with
more than a slap on the wrist. If
caught, a fine of \$5,000 means little
to them, but two years' really served
behind prison bars, may give them
time to reflect upon the ways of the
transgressor.

A lot of property owners in this
city who have paid taxes for years
upon land which has seemed to be a
burden on their hands, evidently are
attempting to get them all back when
they ask prices for their holdings.

It must give President Wilson a
pain to witness the little regard the
United States senate is giving his
warning that unless the peace treaty
is ratified as it stands the heart of
the world will be broken.

Their Opinions

Promising.
It is plain to see right now that the
political issues in next year's presi-
dential campaign will be intricate,
and in some ways new. Things are
shaping up for a very interesting
campaign.—Superior Telegram.

Can Do It Again.
During the war the state brought
much food from the producer direct
to the consumer, and the machinery
of the state can again be put in mo-
tion for the same purpose if it be
found necessary or advantageous to
do so under existing conditions.—Ap-
pleton Post.

Road Signs of Progress.
The legislature of 1919 added 2,500
miles to the state trunk highway sys-
tem. The state highway commission
and the special legislative highway
committee are now touring the state
to obtain information, and at the end
of their trip will select the new routes.
—Stevens Point Journal.

Geographically Speaking.
The geographies of tomorrow may
have to divide the world into two
sections—the league of nations and
Mexico.—Kenosha Herald.

Freight Payers.
A lot of politics was nursed in this
last legislature, the fruits of which
will appear as time passes. The spec-
tators, which were the people, pay
the freight, and as they are used to
it, don't mind.—Racine Journal-News.

Lutherans Nominate.
Sheboygan.—Wisconsin Lutherans
have selected these five candidates for
the office of state superintendent of
Lutheran instruction: H. W. White, Oak-
lawn, Milwaukee; Charles
Bartel, Milwaukee; J. Jaeger, Mil-
waukee; H. Grothman, Milwaukee.
The names of these candidates will be
published in the Lutheran paper and
Sept. 10 the board of electors will
meet in this city to make a choice.

"Grandpa, I Don't Want to Fish Any More"

JUST FOLKS

By EDGAR A. GUEST

SAID HIS MOTHER TO ME.

"Few understand him as I,"
Said his mother to me,
"There are some who say he will lie,
But I'm sure it can't be.
His lips have been sweet with a song
From the days of his youth,
And always, whatever the wrong,
He has told me the truth."

"His hand, which the cold-hearted
spurn,
Has been tender to me;
He has come when the stars faintly
burn.

Many times to my knee,
And though all the old friendships
have died,
And men sneer at his ways,
I know just how hard he has tried
To be worthy of praise."

"Through the nights when his fever
ran high
I watched by his bed;
I answered his piteous cry,
I heard all he said.
It was my hand he longed for back
then."

To stroke his hot brow:
He has called me again and again
As he is calling me now.

Did I fail him because he was ill?
Or whimper the night that he
came?

Then shall I not mother him still
Though he's blackened with
shame?
Though he's lost to the world and its
joy,

And is sick as can be,
Oh, shall I not answer my boy
When he calls unto me?"

Q. Are the members of the students
army training corps entitled to the
Victory button issued by the war de-
partment?

A. The war department has decided
that these men were an actual part
of the army and as such are entitled to
the Victory button. This button may
be secured from the supply officer of
any military organization, from any
quartermaster store, or at any recruit-
ing station, upon the presentation of
discharge papers.

Q. How were the 400-ton stones in
the pyramids of Egypt handled? I. O.
R.

A. The nature of the mechanical
contrivances that were indispensable
to handling the stones of the pyramids
is an unsolved mystery. Herodotus
states that the stones were drawn up
inclined planes by machines. Diodo-
rus states that these stones were brought
from beyond the Nile. He further
states that it took 100,000 men, work-
ing 10 days, to build a causeway 3,000
feet long to facilitate the transporta-
tion of stones from the quarries. It
is held that the principle upon which
the machinery for handling these
stones was built may have contained

Q. Can you explain the origin of the
word "loafer"? G. D. E.
A. An old Dutchman in New York
had the misfortune to have a shiftless
young American fall in love with his
daughter. He disapproved of this and
used to say to her, "Here comes that
"lofer" of yours, the idle good for
nothing." How the "a" got into the

Q. What is the "great armadillo,"
and why is it so called? D. T.
A. The great armadillo is the
largest of its species, and is so
called from being armed with a bony

This Farmer Grows Money on Potato Plants

[BY INTERNATIONAL NEWS.]

Harrisburg—Most anyone with an ordinary knowledge of agriculture can raise potatoes. But it remained for Miles D. Fry of this city to grow money—real honest-to-goodness currency—on potato plants. Fry has a garden just back of his home. Several days ago he brushed the dirt away from one of the stalks "to see how the potatoes were doing," and mingled in a large number of letters and a couple of dollars worth of potatoes. Fry believes that had he let the vine grow he would have had a crop of dollar bills by fall.

Logging Camps Busy.

Rhineland—Most of the big logging camps in this vicinity have begun to do a little logging and within a couple of days will be running to full capacity. What will extend into next spring. A great many men from the cities and the western harvest fields are drifting in here for work in the woods.

COUNTY CHAIRMAN URGES ALL SERVICE MEN TO BOOST BILL

An appeal for the organization of all service men throughout Rock county for propaganda work boosting the Wisconsin state bonus bill, will be made early next week by Lewis C. French, county chairman. French, county chairman, is attending to be made not only to interest service men residing in the cities and villages, but also to have township and school district organizations for putting the bill before the voters. The main attempt of the county workmen will be to interest every service man and to include any man who has served in the military service with the colors in any branch of service or war work—to vote and work for the passage of the measure.

Attention will be paid for arousing interest at the several home-coming celebrations which are scheduled to be held in several cities and villages before the election. French, county chairman, is attending to be made not only to interest service men residing in the cities and villages, but also to have township and school district organizations for putting the bill before the voters. The main attempt of the county workmen will be to interest every service man and to include any man who has served in the military service with the colors in any branch of service or war work—to vote and work for the passage of the measure.

Well, most of the boys are back. This bill is somewhat an indication of what the people will do for the service men or woman. One hears that the farmers are not interested and opposed to the measure. But you know what his son went through to win an All-American victory. Test of State. "Furthermore there are a good many Wisconsin boys who had no definite commonwealth's patriotism during the war because there were a few who hadn't learned Americanism over the arrogance and selfishness of the Prussianism. If the referendum bill fails to pass, the Wisconsin soldier will still have to defend the question of Wisconsin's war spirit. There is a confidence that cities like Edgemoor, Evansville, Milton and Milton Junction, as demonstrated by the spirit in which they welcomed back their soldiers, will pass the bill locally if the soldiers, sailors, marines, and war workers show sufficient interest to arouse the people to vote."

Don't delay—start today—eat ice cream.

LOOKING AROUND

MANY WATCH CIRCUS TRAIN
A large crowd of youngsters were on hand at the St. Paul depot early this morning when the second section of the Ringling Bros. and Barnum and Bailey circus passed through the city en route to Madison. Two other sections followed at close intervals.

ELECTRICIANS MEETING
Mayor T. E. Welsh received word today from Chicago that the annual convention of the International Association of Municipal Electricians would be held there, starting September 23. The letter urged that Lee Pearson, city electrician, be delegated to attend the meetings.

LOCAL PEOPLE DISAPPOINTED.
A large number of Janesville people, who went to Rockford, Friday, to view Ringling Bros. circus, returned home disappointed. Owing to the size of the show it was impossible to get the afternoon performance started in time to allow the local people to stay. There was no parade.

GIVEN LIGHT FINE
John Murray, veteran of the Argentine, was fined \$3 and costs by Judge H. L. Maxfield in the municipal court this morning when he entered a plea of guilty to the charge of intoxication.

TRUCK DAMAGED.
An auto truck owned by P. C. Uehling, 211 East Milwaukee street, was badly damaged this morning when it was struck by a motor truck owned by the Baker Coal company. The Uehling truck was pushed up on the sidewalk and the front end of the truck was crushed. The front wheels were damaged.

JOHNNY IS HURT
Johnny Conroy, better known by the name of Janesville, as Johnny McGinnity, was slightly hurt yesterday afternoon when he fell from a scaffold at the new building of the Parker Pen company on Court street. Mr. Conroy was taken to the hospital where he was given treatment. He will be removed to his home tonight.

BRIDGE ON FIRE
Shortly before noon today the fire department was called out to fight a blaze on the bridge of the Chicago, Milwaukee and St. Paul railroad near the Woolworth mill. The bridge was brought into play and the flames extinguished within a few minutes.

LAKOTAS WILL MEET.
George Sherman, president of the Lakota club, announced today that there will be a special meeting of the club at 8 o'clock Monday night.

COUNCIL MEETING.
Several matters of importance are scheduled to come up for discussion at the regular meeting of the city council which will be held Monday night.

Local People Write Letters to Germany

According to an announcement made by Postmaster J. J. Cunningham this morning, a large number of letters are now being sent to Germany through the local post office. A ban was put on these letters during the war and this ban was kept on until a few weeks ago. Now the ban was lifted and now a number of letters are sent to Germany from this city daily. Parcel post packages may also be sent, but money orders may not.

ROCK COUNTY FARMER WILL BUY STOCK FOR SHIPMENT TO FRANCE

C. W. Hodge, Rock county stock buyer living near Whitewater, has just obtained a position buying Holstein dairy cattle for shipment to France, an appropriation of \$150,000,000 having been made for this purpose by the French government. He has been given the state of Wisconsin as his territory, purchases being made in only two other states, Minnesota and Iowa. The cattle to be bought are to range in age from 2 to 6 years, due to freshen in 20 to 60 days. They will be shipped to St. Charles, where they will be inspected by French officials, loaded in stock cars and sent to Newport News for shipment to France. The cattle are to be shipped in 1,500 to 2,000 animals each.

NAVAL RESERVES MAY TRANSFER TO REGULAR

Any reserve who wishes may enlist in the regular navy, his time spent in the reserve force being counted as a part of his term of enlistment, according to a new ruling of the navy department. With his changing to the regular navy, he comes in for all the benefits of continuous service, as it is called. He gets four months' gratuity pay, continuous service money, \$1.50 per month, citizenship money, \$1.50 per month. In addition he receives 30 days' leave on full pay at the time of his changing into the regular navy.

Reservists now on inactive duty as well as those in service, may take advantage of this offer. The only requirement is that a reservist shall have been on active duty during the war, and that he will not re-enlist in the regular navy until the time he is enlisted in that branch.

Soldiers who enlist in the regular navy receive 30 days' leave on full pay at the time of their enlistment. They are to be discharged within four months of their discharge from the military service.

Men with military training, soldiers or sailors, who enlist in the regular navy, receive 30 days' leave on full pay at the time of their enlistment. They are to be discharged within four months of their discharge from the military service.

While people in general are getting back to pre-war conditions, many of them believe that all of it has been found at least 50 local boys are still in service and many of them are overseas.

A large number of the boys are with the Second division and will be home in a few weeks. Others have returned from France, but are in the service.

Janesville is represented in France and Germany by a few boys, who have elected to stay overseas for a few months. Harry Peske, a former employee of the Gazette is working as a linotype operator on a German newspaper and Tracy Allen is engaged in Paris.

No word has been received from Capt. E. N. Caldwell, former commander of Company M, but it is believed he is still in the United States. Lieut. John Groat is one of the recent arrivals in this country. He is located in a Texas training camp.

JAM IS BIG SELLER IN POSTOFFICE STORE

Jam, which was put on the list of foodstuffs sold at the post office store, is a big seller. Nearly all the orders received since it was added to the list have been for jam only, or at least have jam as one of the articles. The sales are continuing steadily after the first three days of the sale. The sale began Monday morning and the number of orders late this morning amounted to 150. Eight were received yesterday afternoon. The sale will continue in all post offices of the country until the supply of all food stuffs is sold. There is a large amount of difference in prices in excess of 50 percent in local postoffice. Among the best sellers were bacon, canned beans, peas, corn and tomatoes were also sold in large quantities.

DRIVERS OF GRAVEL WAGONS CAUTIONED

Persons who are engaged in hauling gravel and allow the stones to fall on the downtown streets are going to be taken into court. The practice is not stopped, according to Street Commissioner Thomas McKune. Mr. McKune said today he has received complaints and that every effort will be made to remedy the nuisance.

In the past few weeks, windows in downtown stores have been broken by the stones which have dropped from the gravel wagons and then struck by automobiles.

Mr. McKune said he had talked with several of the drivers and insisted that they be more careful in hauling the gravel through the downtown district.

Teachers to Write for Grade Certificates

No statement can be given out as to the result of the diploma examinations which were given at the Court House Thursday until all of the papers are marked. O. D. Antisdel, county superintendent of schools, said today that the results of the examinations of the children who were expected to write have not been done.

Monday and Tuesday the rural teachers will have a chance to receive any grade certificate which they are able to be examined upon.

The examinations will be given at the Court House all day both days. Supt. O. D. Antisdel and the Misses Sadie Clapp and Harriet Bill will be in charge of the work.

LOCAL CONTRACTING FIRM WILL BUILD 17 HOUSES IN 3D WARD

Seventeen new homes will be constructed in the Third ward this year by the contracting firm of C. J. Hayes and W. P. Langdon. Mr. Hayes announced today in discussing the purchases by the city of 17 lots. The houses will be built to be sold at reasonable sums and will be varied in style, he stated.

19 SCOUTS TO PITCH CAMP AT TURTLE LAKE

Nineteen Boy Scouts of Troop No. 3, will pitch camp Monday morning at Turtle Lake. Arrangements have been made by Scoutmaster J. J. Lutz. RIBBONS GIVEN TO 115 PLAYGROUND WINNERS

Blue, red and white ribbons were awarded to the winners of first, second and third places respectively, in all the baseball track and swimming events of the playgrounds yesterday afternoon. The ribbons were given out by Mayor T. E. Welsh, who was accompanied by Miss Amanda Hanson at the Washington, Jack Thompson at the Jefferson and G. H. Heinemann at the two beaches. Not all the ribbons were given out at the Jefferson yesterday, so the remaining ribbons will be given out today by Sol Hopper.

There were 115 ribbons made altogether. On each of them is printed the name of the winner, which was won and whether it was a junior or senior boy or girl.

The playgrounds are officially closed today together with the beaches on the east and west sides of the river. The playgrounds at the beaches will remain open for those who wish to use them during the remaining hot weather of the summer. There will be no life guard on either beach. The pier and playgroundboard will remain where they are.

UNJUST PRICES DEFINED IN H. C. L. AMENDMENT

Washington, Aug. 23.—An amendment to the food control act defining "unjust and unreasonable prices" was tentatively agreed upon by the Senate today. The amendment is intended to consider the anti-profiteering amendments suggested by Attorney General Palmer.

Under the committee amendment federal district attorneys would be authorized to appoint fair price committees and all prices in excess of those fixed by the committee would be regarded as unreasonable.

The amendments as adopted yesterday by the House extending the food control act to include clothing and other necessities and providing a penalty of \$5,000 fine or two years imprisonment, were referred to the agricultural committee which plans speedy action.

WATER SOFTENING OUTFIT INSTALLED IN LOCAL LAUNDRY

Installation of a modern outfit to transform ordinary city water into soft water has just been completed at great cost by the Janesville Steam Laundry, Charles Schaller, manager, stated today. The water, which after being run through the new tank has the laundering qualities of rain water, is to be used exclusively by the laundry in the future.

The outfit consists in the main of a large tank. This has been placed in the basement of the laundry on North Bluff street. The outfit consists in the main of a large tank. GIVEN HEAVY FINE FOR STARTING FIGHT

"Wooster, you knew that you were breaking the law when you started the fight and as a former policeman you should have refrained from trying to beat any one up on a downtown street. Judge H. L. Maxfield, former local policeman, was arraigned in the municipal court this morning to answer a charge of fighting in public with Arthur C. Welsh, son of Mayor T. E. Welsh. Wooster admitted the offense and offered no excuse for his actions. He was fined \$50 and costs or 60 days.

CASE AGAINST LOCAL HOTEL OWNER DROPPED

District Attorney Stanley Dunwiddie announced today that the beer confiscated by the police at the saloon operated by Oliver Grant on North Academy street was found to contain from 2.5 to 3 percent alcohol, but as Mr. Grant was granted a license on June 30 by the council the case would have to be dropped.

Mr. Dunwiddie said that in looking over the minutes of the council meeting on June 30 he found that the application for liquor licenses had been presented and referred to the license committee. The committee reported favorably and the applications were granted.

"The only difference," Mr. Dunwiddie said, "is the license was not given out. They had been granted and the saloon men were all licensed, but they did not have their slips of paper."

RUMANIA WARNED TO END REQUISITIONS

Paris, Aug. 23.—The supreme council of the League of Nations has received an urgent message indicating the resignation of Archduke Joseph, head of the Hungarian government, but expects to hear within a few days that he has quit office.

The reparations committee of the people conference has drafted a note which the supreme council will probably send to Rumania immediately, warning the Bucharest government that reparations under the German and Austrian treaties will be entirely cut off if the Rumanian government continues to requisition goods from the Rumanians already made by the Rumanians in Hungary will be deducted from that nation's share in the indemnity to be paid by Rumania.

Rumanian soldiers still continue seizing foodstuffs, farming machinery and other materials in Hungary and are sending them to Rumania, but the fact that the Hungarian frontier has been wrecked makes it impossible for the goods to enter Rumania.

YOUTHFUL BRICK BAT BANDIT GIVEN 10 YEAR SENTENCE

(Continued from Page 1).
Lawrence told him if he said a word and did not do what he was told to do that Lawrence would tell the police and have his wife swear that he was home on the night the robbery was committed. Lawrence also threatened to shoot him if he told anyone about the hold-ups.

On their third trial they were again successful and robbed a soldier of \$200 at South Janesville. Murray, however, insisted that the man was not hit with a brick.

A short time later they trailed a drunken soldier to the Fourth ward park and managed to rob him of \$1.50. Murray insisted that the man was not hit with a brick.

It was at this time, according to Murray, that Lawrence, knowing Murray would have to do all the brick throwing, Murray demurred. He declared Lawrence again threatened him with exposure.

Murray told of attacking a soldier near a stone quarry north of the city. A brick was thrown at the man and as he sank to the ground an automobile appeared. Becoming frightened they ran and left the man in the road.

The story of the attack on Robert McLeary, which ended in the arrest of Murray and Lawrence, was related by Murray, who told of going to South Janesville, accompanied by Lawrence and the soldier.

Adults Throwing Bricks.
Murray insisted that McLeary had not been shot, but had been hit with a brick. He also admitted that he did all the brick throwing as he was afraid that Lawrence would expose him.

It was after the fourth robbery, according to Murray's story that Lawrence decided that hitting soldiers with bricks was not a wise policy. Murray claimed that he purchased some whiskey and he would get some poison and they would do the service men.

At the conclusion of his story, Murray stumbled to his feet and from water for the judge to pronounce sentence. District Attorney Stanley Dunwiddie asked the court to change the information filed in regard to the soldier being attacked with a revolver. Attorney William Dougherty made a stirring appeal for leniency for his client, Mr. Dougherty pointed out the fact that the boy had only gone as far as the sixth grade in school.

"In view of the fact that you are so young and this is your first offense, the court believes that you will have a better chance to become a law-abiding citizen if you go to the Green Bay reformatory."

"On your own story of guilt, I therefore sentence you to 10 years in the Green Bay reformatory."

GOLD YOU CAN'T GET.
Gold which is present in such quantities that any amount of earth will yield at least a trace of the metal, but which cannot be commercially extracted by any method yet devised, is a tantalizing problem faced by American mining engineers.

This problem is presented by placer deposits of gold which exist in southern Colorado and northern New Mexico. Many of them have been worked in a small way by hand, for over 100 years. In the old days, before the railroads came, the Mexicans used to go to these places in winter and wash out the gold with melted snow. Many of the deposits being worked by hand these miners often made \$5 or \$6 a day. A man may still make a few dollars a day in this way, but the dollars are worth less than they used to be, so that it scarcely pays to work the gravels by hand.

One especially rich placer was purchased by a company, and was widely advertised. Any man who could find a way of getting the gold out of the sand at a profit was offered a handsome share in the property. Many and of strange appearance were the machines that were carted to the isolated place in the mountains, tried out, and found when they had proven failures. One man sank \$100,000 in his attempts to get at this elusive gold, acting on the advice of a dead sister, who communicated with him from the spirit world. Others relied on mechanical devices, while science scratched its head in many a laboratory.

But the gold is still there.

Why Some Succeed

Perhaps you have wondered why some people are able to build up a handsome bank account while others fail to do so.

It is usually because the successful person is willing to make a small deposit of a dollar or more each week or each pay-day while the others think small deposits are not worth while.

Small deposits made often are as good—and much easier—as the large deposit made once in a while. Adopt the regular small deposit plan if you want to win. These deposits are always welcome here.

Enraged Bull Knocks Street Car From Tracks

Beaver Falls, Pa.—How a bull knocked an interurban street car off the track is told by witnesses here. The animal stood in the center of the track as the car approached and refused to budge. Efforts to get the animal to one side only enraged it, until finally in a mad rush it dove into the car and derailed it. There were six passengers aboard, one of whom was slightly hurt.

Whitewater News

Whitewater, Aug. 22.—R. J. Kyle died Tuesday at the Wheeler hospital, where he was taken on account of an acute attack of gall stones. Mr. Kyle had been a sufferer from the disease many years and his condition was so bad that an operation was decided upon as a last resort, but to no avail. He was well known in this vicinity. His home was near Koshkonong. He leaves a wife, two sons and a daughter.

The body of Roy McCutchan was brought here Wednesday from Racine for burial, services being held from the chapel, conducted by Rev. Adams. The deceased had been in ill health for a number of years and the malady was finally diagnosed as cancer. He was the son of W. H. McCutchan and made his home here at one time. He is survived by his wife, formerly Miss Pearl Wiglow of this city.

Heart and Home Problems

LETTERS MAY BE ADDRESSED TO MRS. THOMPSON, IN CARE OF THE GAZETTE

Dear Mrs. Thompson: A boy has been going with one of my friends and the other night he telephoned me and asked me to come over, but I said I had another date. I didn't really, but I didn't know what I should do about going with him. The girl is not my friend and she is a good friend. I never liked the boy very well when he was going with her. What do you think I should do?

NEEL.

Since you do not like the boy, do not let him come to see you. Probably you will get more pleasure out of association with your girl friend than with him. It might cause heart-aching if you let him come to see you.

Dear Mrs. Thompson: I have been married three years and have two children. My husband has been very cruel to me lately. He says he is not my friend and he is a good friend. I must leave, but it will break my heart to do so.

I am only twenty-eight and he is thirty-nine. He is going to get married again and I told him if he did it would kill me. He said he didn't care at all. When he comes home for dinner at night he abuses me as if I were a dog.

I will have to leave and go to my people or get a divorce. I would like your advice.

I think it would be a good plan to go to your parents for a while. When your husband has a taste of life without you he may realize that he is not a good man. If possible it would be well to consult a lawyer before you go. If you leave your husband there

was a wonderful thing that this never happened any more. And that we were allowed to live without passports and licenses and a thousand kinds of persecutions and things forbidden.

But the dirt and the dreadful, crowded tenements—I never could get used to that, and I never shall, she would invariably add. "This America is the land of the free" for some years—for those who come from the terrible places in the old country who had to live in poverty and filth. But for those like us, who lived clean and decent for all the burdens we had to carry, O, the east side is terrible! It kills. It breaks the heart."

TESTED RECIPES
Savory Flumm Huddle—Soak the fish in milk to cover one hour; then cook until tender and separate into flakes; there should be one cup. Cut two inch of fat salt pork into thin dice and try out. To two tablespoons of pork fat add two tablespoons flour and stir till well blended; then pour on gradually while stirring, one cup rich milk.
Bring to the boiling point and add flumm huddle, pork scraps, yolks of two eggs slightly beaten, and one-half cup small potato cubes which have been cooked in boiling salted water until soft. Season with salt and pepper and serve when well heated through.
Salmon Souffle—One large cup salmon, one teaspoon salt, paprika, two teaspoons lemon juice, one-half cup soft bread crumbs, one-half cup milk, yolks of three eggs, whites of three eggs.
Remove bones and skin from salmon, separate into flakes and add seasoning. Cook bread crumbs in milk until tender and season with salt and yolks beaten until thick, then cut and fold in the beaten whites of eggs. Turn into a greased dish and set in a pan of hot water and bake in a moderate oven till firm.

By the looks of this picture there are a few new features about the fall outfits which are worth while knowing. The skirts seem to be a trifle shorter, not very much, but a wee bit farther from the ground than those of the spring and summer suits were. The coats are very much longer than those of spring and some of them reach well below the knees.

LETTERS MAY BE ADDRESSED TO DR. BRADY, IN CARE OF THE GAZETTE

Lo! the Poor Ludiest
Query from ye editor of a monthly magazine:
"I read your stuff because of the common sense you inject and despite the humor. Common sense, as I suppose you have been told a million times, is a rare gift for a writing doctor, not to mention the great silent arm of your profession."
From my office I can look down on a stream of girls and women who constantly visit a shoe repairing shop to have their extremely high and narrow heels leveled up. The repair men tell me that many women have to return regularly each month for this, and if they neglect it the expensive fashionable shoes soon get out of plumb and the result is a wobbly, painful gait.
"Many a young woman may be seen on the street dressed in a skirt too narrow to permit natural locomotion and wearing a high expensive heel shoe, a so-called pitiable combination, as is evidenced by her desperate struggle to move along."
"The question is, what will be the ultimate effect of the feminine fashion of the present and the next generation of girls and women?"
Answer. Don't you worry about the girls and women. They are used to repression, suppression and all right.
Of course the lady who wiggles along in a hobble skirt and shoes that make her walk like a horse enjoys her consistency to the full while she is on the street. As soon as she reaches home, off comes the hobble and the old-fashioned, wide skirt is put on; off with the high shoes and on with a pair of old slippers. Leave it to us doctors to worry. What we see of the fashionably dressed women of the day is enough to worry the cheerfulness man. We see them in the morning in two exposures, as it were. And they are a fright. Even the

THE ALIENS.
Following the birth of Baby Anna, when through a succession of sicknesses, the Carrolls' Anances had reached their lowest ebb, Rose—still the kind, practical, Rose Rothberg of childhood—had met Annie on the street one day.
"Ain't you the foolish one, worrying yourself to a bone about the grocer, and me with a store where you can take the whole stock and pay when you like!" said Rose heartily.
"Didn't I tell you I know what trouble is? You ain't got troubles, Ann, like there is down my way. When you want a change you come down to my flat and sit a while with my mother while I tend the store. She hasn't been strong for a long while. She don't see hardly any one but the children, and she gets lonely."
Annie had accepted Rose's offer of help. But the payment of the money debt did not end the matter for Annie. She kept up an affectionate friendship with the Gubin-Rothberg family. She drank many a hospitable glass of tea with them, sat many an hour listening to stories of Russia, the Rothbergs' moderate prosperity there, and the coming to the "land of promise," which, after all, had only substituted new troubles for old. True, there were no hideous pogroms here, and a few nights when he would find education in the public schools, follow what profession he chose, live in whatever neighborhood he could

PARLOR MAIDS MORE INCLINED TO GO TO WORK

London, Aug. 23.—The domestic problem, according to the minister of labor, is gradually becoming easier and girls are showing more inclination to return to household service.
Further improvement is expected when the domestic service training centers organized by the London County Council are in full swing. One of these centers was opened today in Hammersmith, and immediately all vacancies for training were filled.
Training is free to all girls who are receiving unemployment donations. Parlor maids will receive special attention, being taught to wait on table and to observe many little niceties of service, such as not joining in the laughter which follows a good joke by one of the guests. The correct way of passing around vegetables and moving plates silently also are parts of the curriculum.

Janesville will be well represented at the South side ball park tomorrow afternoon, approximately 5 o'clock, having expressed their intention of going to pull for a Lawrence Kosciusko victory over the mighty Janesville team in the third Lake Shore league game of the season. The Janesville team will play the team back in third place, depending on how the McCook All Stars come out tomorrow.

A large number of rooters will leave with the team on the C. M. & St. P. train at 7 o'clock tomorrow morning, while many are planning to go at 5 o'clock this afternoon. Several are planning to motor to the Cream City, planning to hop off in the Myers Hotel auto bus, so that there promises to be plenty of the old faithfuls on hand to make noise and cover the shinkles as the Poles advance them. Over 2,000 people are expected to see the game. Fans are hoping that the Janes will get stage-fright because a nice berth in fifth place would probably be the result if they did get that way.

Two New Faces will be seen in local uniforms, a bird by the name of Milwaukee Nelson, who hails from Milwaukee, and another down the keystone state with Eddie Aaron, Chicago product, in the outfield. Nelson has been playing independent ball in North Dakota, while Aaron is presumably the propeller of the Pittsburgh club in the National league. He was only recently discharged from the army.

Aaron, together with Vinny, Kaskuske, and Corrie, are booked to cover the garden and pile up a good-sized total of hits between them. Logan, who is slated to leave for the Poles, is a pretty good man, but he is figured to be easy enough for at least ten bingles.

Longest On Duty Gorman will cover first, while Pierce will stop those hit through short. The new man Nelson will display his wares on second with reliable Peter Brausen, ex-international leaguer, on the far corner. Longest is again relied upon to pitch the Janes to a victory, while Tommie Green, who is the best of the league, will hold up Sam's offerings and keep an eagle eye on base thieves.

BRINGING UP FATHER

SOX PINCH HITTER HAS .476 AVERAGE; COBB REAL LEADER

[BY ASSOCIATED PRESS]
Chicago, Aug. 23.—Eddie Murphy, the star pinch hitter of the Chicago White Sox, who has "delivered" with regularity in the past few weeks, topped the American league batters with a mark of .476, according to averages released today. However, he has participated in only 21 games. Harris of Cleveland, in 28 games, made an average of .408.

Ty Cobb, of Detroit, is the real leader, more than 100 points behind Murphy. The Detroit star has been kept in the game by his batting average and has made a nice berth in fifth place with a .374 average. Cobb, of St. Louis, is the runner up to Cobb with .352.

George Sisler, star of the St. Louis club, is showing the way to the base with a .352 average, but is being pushed by Johnston of Cleveland, and Hooper of Boston, who have pilfered 22 sacks each. In addition to being in the leading bases with a mark of .210, which is better than that of "Babe" Ruth of Boston, the slugging home-run king, who has been hitting 10 homers to his credit. Ruth lacked on three circuit drives in the past week.

Other leading American league batters for 40 or more games are: Detroit, .352; Sisler, St. Louis, .351; Peckinpaugh, New York, .339; Jackson, Chicago, .333; Helman, Detroit, .326; Fawcett, New York, .326; Tagstead, Detroit, .317; Killebrew, Washington, .315; Randall, Chicago, .314; Ruth, Boston, .313; Chapman, Cleveland, .312; Weaver, Chicago, .311; E. Collins, Chicago, .311.

Cravath Still on Top.
Max Cravath of Pittsburgh, had a great week with the bat in the National league, and boosted his average over the .300 mark. Last week he hit .400, and this week's averages show him to be batting .301. But Cravath has played in only 31 games. Barber of Chicago, also has been doing some timely hitting and is in fourth place with a mark of .315.

Gavvy Cravath, the Philadelphia manager and leading home run hitter in the senior league, is topping the batters with .340. Jim Thorpe of Boston, is next with .336, and Roush of Cincinnati, is in third place with .323. Cravath broke the tie for home runs, which he shared with Kauff, on a pair of circuit drives. He has eleven.

Wheat of Brooklyn, continued to lead in total bases with 175.

Cutshaw of Pittsburgh, stole his 30th base during the week and is topping the base stealers.

Other leading hitters who participated in 40 or more National league games: Hornsby, St. Louis, .308; Stock, St. Louis, .307; McHenry, St. Louis, .306; Wheat, Brooklyn, .303; Doyle, New York, .299; Luderus, Philadelphia, .299; Groh, Cincinnati, .293; Meusel, Philadelphia, .291.

There was little change of position among the batters of the American association. Hendryx of Louisville, continued to top the list with .350, while Becker of Kansas City the runner-up with .347. Good of Kansas City, is third with .340. Mauer of St. Paul, batted a brace of circuit drives during the past week and tied Becker. Each has made eleven homers.

Bescher of Louisville, is burning the paths with his speed, and with 41 pilfered sacks, is far in front in base stealing.

Other leading American association batters for 40 or more games are: O'Mara, Indianapolis, .338; E. Miller, St. Paul, .321; Leary, Indianapolis, .320; Kirtke, Louisville, .319; W. Miller, Kansas City, .317; Owens, Minneapolis, .314; Covington, Indianapolis, .313; Hyatt, Toledo, .312; George, Columbus, .303; Yerkes, Indianapolis, .301.

SPORT SNAP-SHOTS

BY JACK KEENE.

The announcement that Jim Thorpe, will engage in professional football again this fall with the Canton (O.) team recalls to mind that there are several major league stars who could profitably to the gridiron game.

John McGraw, manager of the Giants, recently obtained Frank Frisch, who starred on the baseball nine team as well as on the baseball nine team at Fordham.

Leslie Mann, the star outfielder of the Chicago Cubs, is a football player of no little ability. While at the Y. M. C. A. college he established a wide reputation and was chosen by many critics for the All-America team. Mann played halfback and was an exceptional punter.

Edo Collins was a good quarterback at Columbia. The crew of the U. S. S. Pennsylvania will bear witness to "Rabbit" Maranville's ability on the gridiron. The pennant winner of the Braves recently won the championship for the sailors with a member of their crew last season.

Dave Robertson, the former Giant outfielder; Halahole of the St. Louis Cardinals; and George Halas, the young outfield who was with the Yankees early in the season, are all football players of exceptional ability.

Jack Gillespie, the infielder turned back to the Giants by the Binghamton club of the International league and now released to the Sioux City club of the Western league, was one of the smallest players in the game, weighing only five feet one inch and weighing only 117 pounds. The first time the Binghamton club went to Toronto this year, Jack was halted by James McCaffrey, president of the club, who started through the players' gate in the Toronto park.

"Hey, kid," said McCaffrey, "where are you going?"

"I'm going to see one of the Binghamton players," replied Jack.

"Get out of here," was the retort. "Don't try to pull that stuff on me."

It finally was necessary for Gillespie to send for Frank Schulte, then manager of the Binghamton club, to identify him before he could gain admittance. When Jack donned his uniform, he returned to the gate and standing before McCaffrey, said: "Now, look over me carefully so's you'll know me when you see me again."

Despite all the men who have gone before him, Jack Dempsey is in line to make pugilistic history that will live forever.

This was the recent comment of James J. Jeffries, formerly world's heavyweight champion, on the victory of Jack Dempsey over Jess Willard.

"The record he has made in the last four years," said the former champion, "with his sleep-producing punches, and stamps him as a pugilist with hitting powers such as few champions have possessed since glove contests succeeded the days of bare knuckle fights."

After comparing Dempsey's ring record with other pugilists who held the title, Jeffries said:

"Some of the old timers declare that Bob Fitzsimmons was the hardest puncher in ring history. But great as was old Fitz's record the list of knockouts he hung up was not as long as that which Dempsey compiled in four short years."

Fitzsimmons, continued Jeffries, was credited with two knockouts, while Dempsey has ended five bouts with the count of ten.

MORAN RELEASED FOR REFUSING TO CHANGE WINTER HOME

William Baker, president of the Philadelphia National league team, declared he released Manager Pat Moran because he would not change his winter residence from Pittsburgh, Mass., to the Quaker City. There is no chance of an argument over this matter between Moran and Garry Herrmann, according to the latter, who was interviewed on exactly this point while in Pittsburgh recently.

"We don't care where Pat spends his winters," said Garry with that characteristic smile, "but we are interested in where he spends his summers." Garry added that he was quite sure Moran would spend several summers in Cincinnati if he wanted to spend them there.

Moran will spend next winter in Pittsburgh, unless he changes his mind. He said he half half a dozen very interesting offers from business houses in Cincinnati, but that he has not had time to consider them seriously. "I want to win the pennant first, then we will talk about winter jobs," said Pat.

Moran is constructed along different lines than most ball players. He does not take kindly to the trick of a popular baseball player accepting a position he cannot possibly fill, and trying to live on his reputation as a ball player. He is of course, grateful that some Cincinnati firms have thought well enough of him to offer him a berth for the long winter months, but he says he would rather spend the snow season in Massachusetts.

Cincinnati fans are now so wildly enthusiastic over Moran, they are using his name in all sorts of way. In Garry Herrmann's town you can buy "Moran" bread, "Moran" candy and most everything else you want. Garry Herrmann says Moran could make a fortune selling his picture to business houses, but Pat is not looking for money in that direction and maintains he is satisfied so long as the fans are with him in his drive for the flag.

ELKHORN

Elkhorn, Aug. 22.—The county convention of the Women's Temperance Union was held in Elkhorn, Thursday and Friday. Mrs. Mary Scott Johnson, state president, Superior, was present. About 30 delegates were in attendance.

The city council has awarded damages to the extent of \$5,000 to Edward Braeger for the death of his wife, due to electric shocks when she attempted to turn on one of the city's incandescent lights a few weeks ago.

Merritt H. Baker, Elkhorn's oldest resident, aged 95 years, died at his home on North Wisconsin street, Tuesday morning at 7 o'clock. His wife, 92 years of age, whose health had been delicate died Wednesday evening at 10 o'clock. Funeral services for both Mr. and Mrs. Baker were held Friday afternoon at 2 o'clock.

Eighty-five Walworth county teachers of rural and graded schools were in Elkhorn this week attending the annual teachers' institute being held here under the direction of Miss Helen Martin, county superintendent. Miss Martin was assisted by D. A. Schwartz of Stevens Point, normal, W. S. Watson of Whitewater, normal, Miss Mabel Beckwith, Miss Grace Johnson and Mrs. J. U. Wheeler of Elkhorn. The institute closed Thursday night, and examinations were given Friday and Saturday.

IN DAYS, GONE BY

FORTY YEARS AGO.
Janesville Daily Gazette, Aug. 23, 1875. The party given last night at Apollo hall by the Pocatontas Archery club was in all respects a success. About 60 couples participated and the merry dance was kept up until a late hour. The hall was beautifully decorated and Anderson's full orchestra furnished the music for the dancing. Miss Dottie Watson returned last evening from a three week visit at her father's home in the city. The daughter of Madison are in the city, the guest of Mrs. S. A. Jones, Court street.—Charles H. Lee returned home this afternoon from Aurora, where he attended the big encampment. He said there were at least 50,000 people there. Mr. Lee is an old veteran, having served in the Eighth regiment.

THIRTY YEARS AGO.
August 23, 1885.—Miss Nellie Clark has returned to Beloit to visit for a few days. Will Cody returned to Milwaukee this morning, after spending his summer vacation with friends in this city. The barns, nine stacks of corn and some farm machinery were destroyed this afternoon by fire on the farm of George Ehrlicher, near Hanover. The origin of the fire is unknown. The loss, estimated at \$3,000, is insured sufficiently to cover \$1,400.—Miss Kate Morrissey returned last evening from Cincinnati, Ohio, where she visited for six months. She brought with her three cousins who will visit in the city for some time.

TWENTY YEARS AGO.
August 23, 1895.—Mr. and Mrs. Charles Watson are spending a few days at Lake Geneva. Yesterday, after the first matches for the Richardson golf trophy were played, sixteen met and eight users were dropped out. The winners will play Sept. 6 and reduce the number to four. The scores in yesterday's match were as follows: C. P. MacLean, 4; C. L. Finfield, 1; F. E. Finfield, 5; J. C. Wilmarth, 1; Fred J. Baker, 5; C. C. Barmath, 1; Charles Schaller, 9; Charles Dunn, 1; Harry McNamara, 0; C. C. MacLean, 0; George Underhill, 0; H. G. C. Carter, 0; H. H. McKinnay, 0; A. Schaller, 0; Sutherland, 0; Stewart McGinnis, 0.

TEN YEARS AGO.
August 23, 1905.—Mr. and Mrs. Frank Dooley are rejoicing over the arrival of a son at their home on Pearl street.—Mark Eastwick, who has been spending his vacation at his home here, expects to return to New York City tomorrow. Miss Ellen Westchick drove from Janesville to Chicago today, where she will be the guest of Mrs. John Sweeney. Miss Mildred Doty returned home today from a visit in Chicago. Miss Jean Powell spent Sunday at Lake Kegonsa.

"Renters' Strike" Backed by City Officials

Atlanta, Ga.—The latest in strikes is the "renters' strike." It consists of

the householder refusing either to pay the increased rentals announced effective in Atlanta Sept. 1, next, or to vacate their dwellings. The ultimate purpose is to air the profiteering in court. Several city councilmen announced in favor of it. Investigations of rentals within the past few days show increases from 40 to 100 percent

in rents. "Those men who have raised rents are hogs," declared Alderman I. P. Styron, himself a property owner. "There is no other name for them," he said. Councilman J. A. Couch said: "It would be a radical step, but if it is the only effective means than I'm for it," discussing the rent strike idea.

Safety In Vulcanizing

A little care will greatly increase tire service, cut down tire bills and do away with lots of trouble—such as keeping them fully inflated and having the little bruises, cuts and tears vulcanized as soon as possible.

Those who are in a position to know say these precautions will double the life of a tire. Certain it is, a little vulcanizing of the "bad spots" is cheaper than a new set of tires.

Every cut, puncture, tear, slit and blow-out should be vulcanized.

Vulcanized repairs outwear the tire. Every one done at this garage is scientifically controlled and properly cured—no danger of your tire being damaged from burns or carelessness.

We do expert retreading, which gives you thousands of more miles from your old, worn casings.

When the "Gas" Gets Low

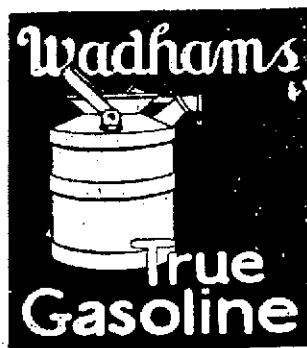

Always go to the garage that displays the "Sign of the Red Can"

DON'T tolerate any half-way measures on the gasoline question. When you decide to use honest, old-fashioned, straight-run gasoline—**Wadhams True Gasoline**—then stick to Wadhams! Don't "mix drinks"—it's bad for the motor. When your gasoline gets low, drive straight to a garage that displays the "sign of the Red Can." Another filling station may be nearer, but while there's still a pint of

True Gasoline Wadhams

in the tank, keep headed for that "red can" sign. Don't weaken the power and pepfulness of the Wadhams that remains; don't dilute its clean strength by pouring in with it an inferior motor fuel.

Each garage listed on this page displays the "sign of the Red Can". Their owners know that real motoring economy begins with the use of the cleanest, most powerful gasoline on the market, a gasoline that is ALL gasoline without trace of kerosene or excess carbon. They are serving their patrons accordingly. And this is a significant fact to remember when you are in need of any service that a garage can render.

Look for the "Sign of the Red Can"

You'll find it displayed at the following Janesville garages:

The Magnificent Ambersons

By BOOTH TARKINGTON

Copyright by Doubleday, Page & Co.

The light of her fire, flickering up behind her, showed suddenly a flying group of tiny snowflakes peering at the window-pane; and for an instant she felt the sensation of being dragged through a snow-drift under a broken cutter, with a boy's arms about her—an arrogant, handsome, too-conquering boy, who nevertheless hid his best to get hurt himself, keeping her from any possible harm.

She shook the picture out of her eyes indignantly, then came and sat before her fire, and looked long and long at the blackened mantelpiece. She did not have the mantelpiece repainted—and, since she did not, might as well have kept his photographs. One forgets what made the scar upon his hand but not what made the scar upon his will.

New faces appeared at the dances of the winter; new faces had been appearing everywhere, for that matter, and familiar ones were disappearing, merged in the increasing crowd, or gone forever and missed a little and not long; for the town was growing and changing as it never had grown and changed before.

It was heaving up in the middle incredibly; it was spreading incredibly; and as it heaved and spread, it befouled itself and darkened its sky. You drove between pleasant fields and woodland groves one spring day; and in the autumn, passing over the same ground, you were warned off the tracks by an interurban trolley-car's going, and beheld, beyond cement sidewalks just dry, new house-owners busy "moving in." Gasoline and electricity were performing the miracles Eugene had predicted.

But the great change was in the citizenry itself. What was left of the patriotic old-stock generation that had fought the Civil war, and subsequently controlled politics, had become venerable and was little heeded. What happened to Boston and to Broadway happened in degree to the Midland city; the old stock became less and less typical, and of the grown people who called the place home, less than a third had been born in it.

A new spirit of citizenship had already sharply defined itself. It was idealistic, and its ideals were expressed in the new kind of young men in business downtown. They were optimists—optimists to the point of belittlement—their motto—"Boost! Don't Knock!" And they were hustlers, believing in hustling and in honesty because both paid. They loved their city and worked for it with a plutonic energy which was always ardently vocal. They were viciously governed, but they sometimes went so far as to struggle for better government on account of the helpful effect of good government on the price of real estate and "betterment" generally; the politicians could not go too far with them, and knew it. The idealists planned and strove, and shouted that their city should become a better, better, and better city—and what they meant, when they used the word "better," was "more prosperous." And the core of their idealism was this: "The more prosperous my beloved city, the more prosperous beloved I!"

These were bad times for Amberson addition. This quarter, already old, lay within a mile of the center of the town, but business moved in other directions; and the addition's share of prosperity was only the smoke and dirt, with the bank credit left out. The owners of the original big houses sold them, or rented them to boarding-house keepers, and the tenants of the multitude of small houses moved "farther out" (where the smoke was thinner) or into apartment houses, which were built by dozens now. Cheaper tenants took their places, and the rents were lower and lower, and the houses shabbier and shabbier—for all these shabby houses, burning soft coal, did their best to help in the destruction of their own value. Distances had ceased to matter.

The five new houses, built so closely where had been the fine lawn of the Amberson mansion, did not look new.

HORRORS OF BAD BLOOD

"All maladies of racking torture, quacks, joint racking rheums, fierce catarrhs, intestine stone and ulcer, cholera, pangs, marasmus, dropsies, asthma, pining atrophy, moping melancholia, moonstruck madness, what miseries!"—Milton.

This is the state of man or woman suffering from blood troubles. Read what the U. S. Dispensary and other authoritative books say in regard to the ingredients entering into "Number 40 For the Blood." "Employed in diseases of the glandular system, in blood troubles, mercurial and lead poisoning, rheumatism, catarrh, constipation, diseased liver, kidneys and spleen. Under its aegis, ulcers and rashes, skin eruptions disappear as if by magic." "Insist on 'Number 40,' by J. C. Mendenhall, Evansville, Indiana; 40 drugs a druggist.

Sold by Peoples Drug Co.

When they were a year old they looked as old as they would ever look; and two of them were vacant, having never been rented, for the Major's mistake about apartment houses had been a disastrous one. "He guessed wrong," George Amberson said. "He guessed wrong at just the wrong time! People were crazy for apartments—too bad he couldn't have seen it in time. Poor man! he digs away at his lodgers by his old gas drop-light lamp almost every night—he still refuses to let the mansion be torn up for wiring, you know. But he had one painful satisfaction this spring: he got his taxes lowered."

Amberson laughed ruefully, and Fanny Minner asked how the Major could have managed such an economy. They were sitting upon the veranda at Isabel's one evening during the third summer of the absence of their nephew and his mother; and the conversation had turned toward Amberson finances.

"I said it was a 'painful satisfaction,'" Fanny said. "The property has gone down in value, and they assessed it lower than they did fifteen years ago."

"But further out—"

"Oh, yes, 'further out!' Prices are magnificent 'further out,' and further in, too! We just happen to be the wrong spot, that's all. Not that I don't think something could be done if father would let me have a hand; but he won't. He can't, I suppose I ought to say. He's always had his own figuring," he says; and it's his lifelong habit to keep his affairs, and even his books, to himself, and just hand us out the money. Heaven knows he's done enough of that!"

"There seem to be so many ways of making money nowadays," Fanny said thoughtfully. "Every day I hear of a new fortune some person has got hold of, one way or another—nearly always it's somebody you never have heard of. It doesn't seem all to be in just making motor cars; I hear there's a

great deal in manufacturing these things that motor cars use—new inventions particularly. I met dear old Frank Bronson the other day, and he told me—"

"Oh, yes, even dear old Frank's got the fever," Amberson laughed. "He's as wild as any of them. He told me about this invention he's gone into, too. 'Millions in it!' Some new electric headlight better than anything yet—every car in America can't help but have 'em,' and all that. He's putting half his mind by into it, and the fact is he almost talked me into getting father to finance me enough for me to go into it. Poor father! he's financed me before! I suppose he would again if I had the heart to ask him. At any rate I've been thinking it over."

"So have I," Fanny admitted. "He seemed to be certain it would pay twenty-five per cent the first year, and enormously more after that; and I'm only getting four on my little principal. People are making such enormous fortunes out of everything to do with motors, it does seem as if—"

"We may turn out to be partners and millionaires then," Amberson laughed. "I thought I'd ask Eugene's advice."

Medicine For a Fever.
Did you ever stop, when you were pitying yourself after some disagreement with your husband, and wonder what he was pitying himself for? Well, suppose you have a falling out because you wanted him to go out and play cards with some friends and he says he is too tired and wants to sit at home in his arm chair and just rest and read.

Self Pityers Never Stick at Small Details.
You urge your wishes and he urges his, and finally, he says he'll go and you say you don't think you care to go if he is going to be so mean about it, and then he sits down with his pipe and his paper and his grudge, and you go to bed without kissing him. And as you lie there you are thinking what a hard time you have, busy around the house all day doing monotonous housework, and then a little outing with your husband, he isn't willing to make the effort to go with you. Of course, you could go alone, but what's the sense of being married if you can't go anywhere together? People will begin to think it's queer that you never go out together (of course, it isn't "never," but self pityers never stick at little details like that).

Doesn't that point of view make him seem a little less unreasonable as he sits downstairs in his chair puffing at his pipe, and frowning at his paper? Doesn't it give you a little different idea of him to think of him sitting there pitying himself than it did to fancy him sitting there determined to have his own way and keep you from having a good time.

If you could possibly accomplish the further miracle of feeling just a twinge of pity for him instead of for yourself, the quarrel would surely be on his way out. But perhaps that is asking too much.

Anyhow it's an interesting experiment for husbands and wives, and other folks too.

DR. GODDARD will be at the Grand Hotel, Janesville, Tuesday, August 26th. Hours: 9 to 6. Consultation Free.

I Want the Chronic Cases
Says: Dr. Goddard
Other Doctors Do Not

Nine out of ten practicing physicians hate to see a person suffering from a CHRONIC ailment come into their office.

Such cases as a rule are not only hard to treat but take careful, patient service on the part of the doctor and are a class of people who having become despondent and discouraged with the chronicity of their troubles are irritable, cross and hard to handle.

A physician in order to successfully treat this class of patients must be peculiarly adapted by temperament and training to handle these cases in such a way as not only not to offend them but to secure their co-operation and confidence.

It is just such qualifications as these, added to his expert knowledge in the treating of chronic diseases, that has made DR. GODDARD, the MILWAUKEE SPECIALIST, so successful in treating CHRONIC CASES and he is justified in wanting this class of people for his patients.

If you or any of your family or friends are in this class—CHRONIC SUFFERERS—and you have been treated unsuccessfully by your local or other physicians and yet have a longing hope to be cured, come and see DR. GODDARD on his next visit to JANESVILLE, on TUESDAY, AUGUST 26th, at the GRAND HOTEL, and without one cent of cost to you, consult this man who makes a specialty of treating CHRONIC APPENDICITIS, RUP-TURE, GALL STONE, COLIC, GOITRE, VARICOSE VEINS and ULCERS, diseases of the STOMACH and BOWELS and ALL CHRONIC DISEASES, and let him examine you and give you a TRUTHFUL and HONEST opinion as to what can be done for you.

DR. GODDARD comes to us highly recommended and counts among his patients many of the best known people in this city.

Under no circumstances will he accept any incurable case for treatment but will frankly and honestly tell you what is best to do.

CONSULTATION IS FREE and ABSOLUTELY CONFIDENTIAL. If you cannot call personally write to him at his address below for his little book which is FREE, entitled "MODERN METHODS OF TREATING CHRONIC DISEASES without OPERATIONS." It is intensely interesting. A postal card will bring it to you in a plain envelope.

DR. GODDARD will again be at the GRAND HOTEL, JANESVILLE, TUESDAY, AUGUST 26th, from 9 A. M. to 6 P. M. and every four weeks thereafter.

Address
DR. N. A. GODDARD,
121 Wisconsin St.,
Milwaukee, Wis.

Dinner Stories

While sea fishing with a friend a doctor lost his sinker. Rather than cut the day's fishing short he hit upon a happy idea of utilizing his flask. The bottle was filled with water, carefully

corked and sent down on its mission. A few minutes later the doctor was lucky enough to pull up a pair of whiting, one on each hook.

"The doctor," exclaimed the companion, "twins this time?"

"Yes," replied the doctor with a smile, "and brought up on the bottle."

Some friends had been twitting Dr. Brougher on the well-known tendency of ministers and lawyers to write almost unreadable hands, but the divine was too much for them.

"When it comes to poor writing the ministers and lawyers do not stand utterly alone," he said. "I recall Billy, whose grandfather gave him \$10 on his birthday. Billy took it to the bank and received the customary bank book, in which the cashier made the entry 'By cash, \$10.' A day or so later Billy saw his grandmother and in thanking her said:

"I was awfully surprised when you gave me so much money, and the cashier at the bank was too, because he wrote in my book, 'By cash, \$10.'"

Dr. Rathbone Gough, at a "bonedry" banquet in Boston, said:

"What a change we shall see when all America goes bone dry! Why, friends, America will seem like heaven then!"

"I don't know about that," the soldier heckler shouted.

"You, a soldier, to talk so!" exclaimed the noted temperance lecturer. "Least of all men should a soldier express such pernicious doubts. Why, don't you know, my young friend, that whisky has killed more people than bullets have ever done?"

"Maybe so. But, all the same, I'd rather be full of whisky than bullets."

Orfordville News

Orfordville, Aug. 22.—That the village marshal is determined to enforce the village ordinance regulating the driving of automobiles and other motor vehicles within the limits of the village, was again demonstrated Friday when another driver was brought before the police court charged with driving with open muffler. The party pleaded guilty, and was fined \$10 and costs.

The Brittingham and Hixon Lumber company has added an auto truck to their equipment at a local yard.

The dance at the Odd Fellows' hall Thursday night was well attended and an excellent time is reported.

Rev. M. A. Drew and wife and little grandson motored to Milton Friday, and visited with friends there.

SOLDIER SERVICE AID BOARD ORGANIZED

(SPECIAL TO THE GAZETTE.)
Madison, Aug. 22.—The soldier service recognition board has been organized with the election of Adj. Gen. Orlando Holway as chairman and Col. John C. Salzman as secretary. The board is composed of the governor, the adjutant general, and Major W. F. Lorenz. This board has the administration of an appropriation of \$500,000 for the aid of sick, wounded and disabled soldiers. If the soldier board is approved by the people Sept. 2 this board will have the administration of that fund.
"The board and the adjutant general's office are without reliable data," says Secretary Salzman, "in relation to names and addresses of the men who may be entitled to benefit by this law and it is not practicable to obtain this necessary information from federal officials. Local Red Cross chapters, posts of the American Legion and all physicians are requested to cooperate to the end that applications may be promptly filed and aid allotted in all necessary cases coming within the law."
The law provides that during the period of convalescence for the relief of sick, wounded or disabled soldiers, sailors and marines and for the comfort and support of such sick, wounded or disabled soldiers, sailors, or marines, the service recognition board may pay to or send upon any one soldier, sailor, or marine, not to exceed \$30 per month, to be administered under the direction of the service recognition board.

Mexican Eagle Looked Like a Chicken; Riot Breaks Up Pageant

(BY INTERNATIONAL NEWS.)
Harrisburg, Pa.—Harrisburg was the scene of a small sized Mexican revolution during a recent Pageant of Nations. The whole fracas arose over the substitution of the wrong bird for the eagle on the flag which the Mexican representatives were to carry in the parade.
Everything was lovely until the Mexicans saw the flag which had been made for them to carry. It was supposed to represent the national emblem of Mexico. True, it had the proper colors—but there was some doubt regarding the bird insignia—the pageant leaders said it was an eagle, but the Mexicans declared that it was a chicken.
The Mexican deserted the parade after the controversy over the flag. Hence practically every nationality was represented in the pageant—except, of course, Mexico.

Worms in Armies Attack Southern Crop

(BY INTERNATIONAL NEWS.)
Aubrey, Tex.—Army worms, real old-fashioned cotton army worms. Well, they do say there are several armies of them in this county. This week a blinder in a wheat field four miles from here was stopped by the pests. It appears that the army of cotton worms were marching from one cotton field to another and decided to take a short cut through the wheat field. They were so thick on the wheat stalks that they actually clogged the cycle blades to such an extent that it would not cut the grain. After clearing the blades out several times the driver was able to proceed with cutting the grain.

Will Grow Tobacco in Place of Cotton

Macon, Ga.—According to Farm Demonstrator W. G. Middlebrooks, tobacco will be added to the list of crops grown in Bibb county next year. It will to a large extent take the place of cotton, which is now menaced by the boll weevil. Experts will come here from the State College of Agriculture to give instructions as to how the crop shall be planted and cultivated.

Pioneer of West Dead, 77—Insman, Stagedriver

St. Anthony, Kan.—A. J. Anthony, one of the pioneer plainmen of the state of Kansas, is dead at his home here. He is one of the little company of men who lived in Ford county for more than 50 years. Mr. Anthony came to Dodge City—it was then Fort Dodge—in the early seventies. He had seen the country grow from an army post station, stage town and "cow" town to a city of more than 15,000.
Mr. Anthony was a stage driver for Benlow Sanderson over the old "overland stage" route from Kansas City, Mo., to Santa Fe, N. M. The stage made the trip in 13 days.

Miss Bonnie Gooch assisted at the Midget, Wednesday.

OUR MILKMAN SAYS:

"Good mornin'! Have you heard the latest about my milk? They say they have a milk science now. Yes'm!

"The doctor reckons he can do anything he wants to now with milk. He said in the office this mornin': 'Just give me any chronic patient and let me set the diet and I'll have him show improvement in less than a week!'"

"The patient must stick to the milk diet," says he, and the milk'll do the rest. The vitamins in the milk work wonders in the system. They sort o' remake the cells and start the digestive organs workin' like they should! Yes'm the doctor says anybody that has any chronic trouble can find a cure in his milk science. An' I know he ain't just a talkin', for there's Mr. Jones the banker—he's been a lot better since he started the diet. Didn't know there was so much good in milk, did we?"

"Get back to first principles—
DRINK more milk—IT'S best"

We have the largest supply of our own milk.

The only dairy supplied from its own herd—40 high grade Holsteins and Jerseys.
